FERRET PRO QUICK START GUIDE

1 Download the Free Ferret App
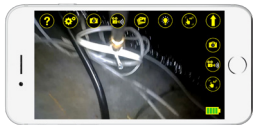

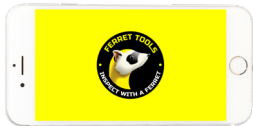

Scan the QR Code or search for **"Ferret Tools"**

Download on the App Store

ANDROID APP ON Google play

Requires iOS V9.0 or later

Requires Android V6.0 or later

NOTE: During installation or first use of the app you must give access to the phone or tablet's photo gallery to allow you to save photos and video footage.

2 **Connect to your Ferret Pro**

Turn on your Ferret camera. The camera power switch is at the back of the camera under the back cap. The camera will take about 2 seconds to boot and power on.

NOTE: The camera is IP67 rated only when the back cap is in place.

On your phone or tablet, turn on WiFi and search for the **Ferret-WiFi-XXXX SSID** in the WiFi list. The Ferret camera has a built in WiFi hotspot, so no other WiFi network is needed.

NOTE: The camera will not link via Bluetooth – it is WiFi only.

3 **Enjoy using your Ferret Pro and start saving time & money, working safer & smarter.**
